

- 1- EL Transformer
- 1- Clutch Pedal
- 1- EL Gas Pedal
- 1- EL Brake Pedal

Installation hardware with instructions

Step 1

Start with either pedal. Using Allen wrench, loosen all four allen screws on pedal pads.

Step 2

Make sure to fasten "L" brackets over existing pedals and tighten all four allen screws.

Step 3

Choose the best possible method for fastening pedal from above diagram. Always try to position "L" brackets inward towards center most point of pedal.

Step 4

Check to make sure pedals are secure. "L" bracket should be firmly clamped to back of pedal.

Step 5

After securing and fastening pedal make sure to check for any movement or loose "L" brackets. Pedal should appear level and flush with all allen screws tightly secured.

Step 6

Before Driving! Apply pressure to pedal pads with foot to insure that all the screws are tightened properly. Repeat steps 1 to 6 for remaining pedals.

• Once you've completed with the mounting instructions, you may continue to wiring instructions.

Instructions:

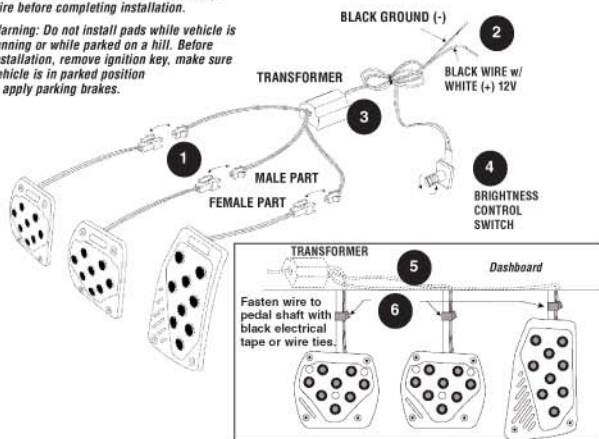

- Step 1: Connect Female parts of connector from pedals with Male parts of connector from transformer.
- Step 2: Connect Black(-) wire to Ground, and Black wire with White stripe(+) 12V to the Fused Power Source.*
- Step 3: Tie any excess or loose wires together with black wire ties (Included) to avoid any possible disturbance while driving.
- Step 4: Mount Brightness Control Switch in a place where it is convenient and easy to reach.
- Step 5: Mount transformer beneath your dashboard and away from any moving parts.
- Step 6: Secure and fasten any power wires running from pedals to transformer with black electrical tape or wire ties.

WIRING INSTRUCTIONS (Manual)

NOTE:

Make sure to add a 12V fuse to positive (+) wire before completing installation.

Warning: Do not install pads while vehicle is running or while parked on a hill. Before installation, remove ignition key, make sure vehicle is in parked position & apply parking brakes.

Warning! Do not put bare feet on EL Neon Pedal.

* This source depends on how you choose to turn pedals on. You can connect a toggle switch (Not Included) or tie them into your parking or headlight circuit. Professional installation is recommended for this type of installation.
